DRIFT CAUGHT HERE AND THERE BY "EVENING WORLD" REPORTERS.

Central Park Attendants.

Some weeks ago THE EVENING WORLD CON tained an account of the escape and subsequent capture of a 6-foot alligator, which had climbed over the wire-railing of his tank, in Central Park, and started out on a tour of inspection.

The slight taste of freedom which it en joyed on that occasion only served to render joyed on that occasion only served to render the saurian's dislike to the confines of the tank more marked, and on several different occasions it has made other breaks for lib-erty, fortunately being caught before getting very far.

Supt. Conklin noticed this growing dispo-sition to be fractions, and last week he deter-mined to check the 'gator's roving propen-sities.

Accordingly a stout chain and leather collar was procured, an iron spike driven

Accordingly a stout coain and leather collar was procured, an iron spike driven into the ground near the tank, and Charlie Snyder, the ciephant-keeper, and Pete Shannon, the custodism of the animal house, were called in to assist in securing the truant.

There was a merry twinkle in Supt. Conklin's eyes as he stepped one side, took out his watch and called time; while Shannon, armed with a rope, and Snyder with a fresh chew of tobacco, advanced in double file on the apparently slumbering reptile.

Shannon, who had been to the Wild West show, lastily made a noose in the rope and cast it with such destrity that he almost caught one of the hippopotami in the adjoining tank.

The second round, was more decisive. By a sudden and adroit movement, Snyder caught the reptile's tail, which he clung to with a vice-like grip, while Shannon's second cast of the rope, was more accurate, as it excepts the 'gator first in front of the fore leg.

cast of the rope, was more accurate, as it caught the 'gator fust in front of the fore leg. The reptile's struggles to free itself were terrific. Snyder's grip was broken, and the two men clung to the rope, carefully avoiding the threatening tail and equally danger-consteats.

ous teeth.

Finally, exhausted by its struggles, the alligator remained motionless, but distended to double its breadth with rage.

The rope was secured, and the men retired to their corners and rubbed each other down.

Time was again called by Supt. Conklin, and Snyder, still fresh but panting a little, stole up in the rear and again secured a tailgrip, while Shannon hastily took a half-hiten around the 'gator's nose. Then, before the reptile could make up its mind for another struggle, the leather collar was buckled around its neck and the chain secured to the iron stake.

Referee Conklin at once awarded the vic Referee Conklin at once awarded the vic-tory to the men, who modestly received the congratulations of their comrades. It might here be added that when the reptile's wrath evaporated the swelling also decreased, so that now the collar has slipped over its forelegs and is firmly located in the centre of its body, whence no amount of struggling can dislodge it.

Some Valuable Keepsakes Which Have

Fallen into Vulgar Hands. In the window of a curiosity shop on the ast side, lying among a lot of old junk, an EVENING WORLD reporter saw the sword and cabbard that formerly belonged to a man who was once a prominent county officer. The sword is elegantly mounted with the

Masonic insignia, and probably cost \$60 when new. The owner of the shop asked when new. The owner of the shop asked \$20 for it.

When asked how he came in possession of the relic he said he bought it at a pawn-broker's sale. He admitted that he practised a little blackmailing game by keeping it in the window exposed to curious eyes, but excused himself on the ground that he "must sell it one way or another, and if I can't do it any other way I must shame some of his friends into buying it."

He also had an engraved badge, made of gold, that was presented to a wrestler by a well-known sporting man, and which could not have cost less than \$100. He wished to dispose of it for \$25.

A small diamond-studded badge, which was formerly the property of a "blood-and-thunder" actor, could be bought for a small per centage of its real value. LOTS OF MONEY IN BOBTAILS.

With but One Horse, No Conductor and a Short Route, Each Car Makes a Fortune. The idea generally prevails that the reason conductors are not employed on most of the cross-town lines is because the companies

annot afford them. This is doubtless a fallacy, and the argunents to prove it to be such are many, and should be convincing. They are these:
Crosstown reads are not more than onethird as long, as a rule, as the longitudinal third as long, as a rule, as the longitudinal lines. Their rolling stock is lighter, and so is their track. Less money is required to build and equip, and much less to keep their road-bed in repair, than is expended by the lines running lengthwise of the city.

One horse, too, does the duty of nearly four animals on the long lines. Passengers, as a usual thing, ride a shorter distance in them, but they collect for a ride of an avenue block as much as the Third avenue line would for a ride from the Post Office to

would for a ride from the Post Office to Hariem with two men to look after the safety of the passenger and two horses to draw the Of course the longer lines have more of a territory to draw on for their patronage, but how much more when it is considered that the crosstown lines have a goodly nortion of

the crosstown lines have a goodly cortion of Long Island and a large share of the Western world which reaches New York by the East and North River ferries? The comparison of the cost of maintenance and running and the receipt of the two classes of surface roads undoubtedly gives the bobtail lines the benefit of greater profits, and while actual figures are not given because not at present obtainable would seem to indi-cate the undoubted ability of those com-panies which maintain and operate such ob-jectionable systems of transportation to em-

ploy conductors for the safety of their patrons and the public generally. Another appeal is made to the ladies who were passengers in the car which killed Mrs. Levy on July 10 to come forward and do their duty by the public. The officials of the grasping corporation are doing all in their power to thwart the deserved prosecution which is being waged against them and their

They have been forced to sell part of their scanty furniture to pay their rent to keep from be ng turned in the street.

In a rear house at 51 Jackson street lives a family named Caldon. Their baby, five months old, has had almost since its birth a troublesome eczema, although in all other respects perfectly healthy, and would be a very pretty child but for the affection of the skin.

The little one had been treated by a quack doctor, whose application had aggravated the disease very much. The poor little baby was suffering so severely from the intense itching that its mother was compelled to the lits hands to keep it from tearing its face.

A soothing and cooling application was given by The Evenns World physician, which relieved the little one's agony very much and gave the tired little child a chance to court "Nature's sweet restorer—balmy sleep."

After a very enjoyable breakfast the games of football, baseball, &c., were indulged in. In the game of football William J. Bennett, Superintendent of Station D. East New York, excelled every one, with August Miller, of Waterbury, Conn., second.

Dinner was taken at about 4 P. M., and after three hours more of enjoyment the club started for home, reaching the city at 8.30 P. M. The procession was then formed at the dock and the club went to its headquarters, where revelry was kept up until a late hour. There were plenty of fireworks along the line of march, especially at the headquarters.

Among those most prominent in attendance were:

were: Sergt, Griffith, Alderman William Talt, Assemblyman Sol D. Rosentnal, Theodore Schmoll, Treadent Henry C. Hoffman, Vice-President Harry A. Richarda Secretary Samuel Jackson, Treasurer June Schmoll, Jr.; Sergt.-at-Arms L. Watchunger.

A Juvenile Joke.

As I was walking through the street l heard two boys talking about their muscular power in throwing a ball. "Out of sight." says one. "I can throw the ball out of sight without throwing it in the sir." So they made a formal wager of five cents that he could not do it. Whereupon the boy saw a great deal of mud and threw the ball into it and accomplished the feat and won the bet.

A. S. Thompson, Passenger Director. Foot of East Thirty-fourth street, New York, July 30. Conditions of the Contest. Following are the conditions of THE EVEN-NG WORLD's joke contest: It is open to everybody-men, women and children. Any person can submit one or as many jokes as desired. The decision, however, will be

ollection.
The okes must be original, that is to say, they shall not have previously appeared in print to the knowledge of the competitor. Each joke must be written on one side of a sheet of paper, or if two or more sheets are required, they must be neatly secured together. Each joke must bear the name of the competitor and the date on which it was sent. The jokes may consist of from one word to

The latter limit must not be exceeded

made on the merits of the best joke in the

200. The latter limit must not be exceeded, and competitors should bear in mind that brevity is often "the soul of wit." A joke of a few lines, if first class, will stand as good a chance of winning the prize as one of twenty lines.

The prize will be \$25 for the best joke submitted. Bill Nyc will read all jokes sent in, and will in his ripe judgment determine the winner. Some of the jokes will be published from time to time, but the publication or non-publication of a joke will have no bearing upon the final decision. A joke may be published and yet finally ruled out because it may be a "chestnut."

may be a "chestnut."
The Evenino World cannot undertake to acknowledge the receipt of all jokes sent in other than that the publication will of course

be an acknowledgment. Great care, however

will be taken to preserve all jokes received, and to see that judgment is passed upon them by Mr. Nye.

It has not yet been determined when the contest will close. That will depend upon the degree of interest aroused by the con-test. But it will be well for competitors to send in their jokes at once, as in the case of two jokes of equal merit, priority of receipt would determine the prize winner.
